JULY 2020-JUNE 2021: 0.7% OF NATION'S POPULATION WAS 'TEMPORARY VISITOR'

Over 84% of 'temporary visitors' moved due to Covid-linked factors

AANCHAL MAGAZINE & MIHIR MISHRA
NEW DELHI, JUNE 14

AFTER THE onset of the Covid-19 pandemic in March 2020, 0.7 per cent of the country's population was a 'temporary visitor' in households during July 2020-June 2021, a report named Migration in India 2020-21, released by the Ministry of Statistics and Programme Implementation (MoSPI) on Tuesday, showed. Over 84 per cent of these 'temporary visitors' — categorised as those who arrived after March 2020 and stayed in the household continuously for a period of 15 days or more but less than 6 months — moved places for reasons linked to the pandemic — ranging from meeting family/relatives/friends, loss of job/closure of unit/lack of employment opportunities, migration of earning member, closure of educational institutions and health-related reasons, it showed.

A total of 68.9 per cent of the 'temporary visitors' moved to meet family/relatives/friends during July 2020-June 2021, while 15.7 per cent of such temporary visitors moved for health-related reasons and 12.2 per cent moved for loss of job/closure of unit/lack of employment opportunities, the findings of the report showed.

The Migration in India report, which is based on first-time collection of additional data during the annual round of Periodic Labour Force Survey for July 2020-June 2021, separates the categories of 'temporary visitors' and 'migrants'. While 'temporary visitors' have been defined as the ones who arrived in households after March 2020 and stayed continuously for a period of 15 days or more but less than 6 months, 'migrants' have been defined as those, for whom the last usual place of residence, any time in the past, is different from the present place of enumeration.

"That 0.7 per cent is male, female combined at all-India level and that percentage is in reference to the country's population. 0.7 per cent of the country's population moved during July-June 2020-21 as temporary visitors in the households. If the absolute number is to be estimated, it has to be multiplied with the country's population. The survey block was introduced in July 2020 and the period of survey for asking this information was July 2020-June 2021. The temporary visits were due to a variety of reasons as enlisted in the survey," a senior official from the National Sample Survey Organisation (NSSO) said. Taking the country's total population to be 121.05 crore (Census 2011), 0.7 per cent would imply to be about 85 lakh 'temporary visitors' in the households.

The all-India migration rate was 28.9 per cent in July-June 2020-21, with 26.5 per cent migration rate in rural areas and 34.9 per cent in urban areas. Females recorded a higher share of migration rate of 47.9 per cent, with 48 per cent in rural areas and 47.8 per cent in urban areas. The migration rate for males was seen at 10.7 per cent, with 9.9 per cent in rural areas and 12.2 per cent in urban areas.

Among females, the highest level of migration rate was seen at 86.8 per cent for marriage, while 49.6 per cent of the males migrated in search of employment, to take up better employment/business/proximity to place of work, or loss of job/closure of unit/lack of employment opportunities. During July-June 2020-21, 0.2 per cent persons migrated due to migration of parent/earning member of the family, with 17.5 per cent males and 7.3 per cent females migrating for this reason.

Labour survey reveals sharp drop in jobless rate in 2020-21

ENS ECONOMIC BUREAU
NEW DELHI, JUNE 14

LABOUR INDICATORS recorded a sharp, all-round improvement in 2020-21 (July-June) compared with the previous three years, data released by the National Statistical Office (NSO) on Tuesday showed.

The annual report of PLFS for July-June 2020-21 showed that the unemployment rate, as per usual status (reference period of last 365 days preceding the survey), eased to 4.2 per cent from 4.8 per cent in 2019-20. As per the current weekly status (reference period of one week) — contrary to perceived expectations of a likely hit on jobs — unemployment rate eased to 7.5 per cent in 2020-21 from 8.8 per cent.

According to the report, the labour force participation rate (LFPR), or the share of working or seeking or available for work in the labour force, was the highest in four years at 39.3 per cent in 2020-21, as was the worker population ratio (WPR) at 36.3 per cent. WPR is defined as the percentage of employed persons in the population. WITH PTI

Two states walk out of NPS

Rajasthan and Chhattisgarh stop contributing to fund

ENS ECONOMIC BUREAU
MUMBAI, JUNE 14

THE NATIONAL Pension System (NPS), managed by the Pension Fund Regulatory and Development Authority (PFRDA) and designed to unburden the Central government and state governments of huge future pension liabilities, has received a setback as two states, Rajasthan and Chhattisgarh, have walked out of the system after participating in it for the last five years.

Sources confirmed that both the states, ruled by the Congress, have stopped contributing any funds from their side to the NPS since April 1. "Yes, both the governments have stopped the payment. Now, whatever the funds they had contributed earlier will be taken care of by us," said an official, adding that there are no legal ways through which the PFRDA can return the funds whatever have been contributed by these two states.

All other states except Tamil Nadu and West Bengal had participated in the NPS and the last state that had joined the NPS was Tripura.

Chhattisgarh Chief Minister Bhupesh Baghel had urged Prime Minister Narendra Modi to issue a directive to the PFRDA to refund the money deposited towards the NPS since November 2004 by the state government along with accruals. Baghel made this demand after the PFRDA rejected the state government's request to withdraw Rs 17,240 crore accrued under the NPS.

The state government has decided to reinstate the old pension scheme (OPS) "in the interest of government officials and employees". Meanwhile, speaking to the media, Signature Bandyopadhyay, Chairperson, PFRDA, said the total assets under NPS have touched Rs 35 trillion and currently has an AUM of Rs 7.4 trillion with 5.33 crore subscribers across central and state government corporates and retail subscribers.

Bandyopadhyay said equity schemes under NPS have given a return of 11.92 per cent while the corporate bonds have provided a return of 9.21 per cent. Three new players, Tata Asset Management, Axis Bank and Max Financial have joined as new pension fund managers recently and will start their operations shortly.

Bandyopadhyay hinted that the PFRDA is working out plans to launch a guaranteed pension scheme, which can be linked to government securities and can also be made floating and may be launched by September.

- All other states except Tamil Nadu and West Bengal had participated in the NPS and the last state that had joined the NPS was Tripura

Govt clears 4 names for RBI Board

ENS ECONOMIC BUREAU
MUMBAI, JUNE 14

THE GOVERNMENT has nominated Anand Mahindra, Venu Srinivasan, Pankaj Ramanbhai Patel and Ravindra H Dholakia as part-time non-official Directors on the Central Board of Reserve Bank of India (RBI).

As per an official statement, the Appointments Committee of the Cabinet (ACC) approved the proposal of appointment for a period of four years from the date of notification of the appointment, or until further orders, whichever is earlier.

Dholakia was the Economics Area faculty at IIM Ahmedabad from September 1985 to April 2019 when he superannuated. He was earlier on the Monetary Policy Committee of the RBI which decides the policy rates.

Venu Srinivasan is the Chairman Emeritus of TVS Motors. He is also on the board of Tata Sons Ltd.

Patel is the Chairman of Zydus Lifesciences Ltd, as well as the president of FICCI (2016-17).

Mahindra is the chairman of Mahindra group, which has presence across segments such as automobiles to IT, agribusiness and hospitality sectors.

NON-OFFICIAL DIRs

- Ravindra H Dholakia
- Venu Srinivasan
- Pankaj Ramanbhai Patel
- Anand Mahindra

Green hydrogen: TotalEnergies to pick up 25% in Adani arm

ENS ECONOMIC BUREAU
MUMBAI, JUNE 14

THE ADANI group and France's TotalEnergies have entered into a new partnership to jointly create the world's largest green hydrogen ecosystem. In this strategic alliance, TotalEnergies will acquire a 25 per cent minority interest in Adani New Industries Ltd (ANIL) from Adani Enterprises Ltd (AEL).

"Both Adani and TotalEnergies are pioneers in energy transition and clean energy adoption, and this joint energy platform further strengthens the public ESG commitments made by both companies. ANIL's ambition is to invest over $50 billion over the next 10 years in green hydrogen and associated ecosystem," Adani group said.

In the initial phase, ANIL will develop green hydrogen production capacity of 1 million tonnes per annum before 2030. "The strategic alliance of the Adani-TotalEnergies relationship is immense at both the business level and the ambition level," said Gautam Adani, chairman, Adani group.

"The hydrogen production capacity of 1 million tonnes per annum of green hydrogen will be a major step in increasing share of new-to-carbon-neutral molecules including biofuels, biogas, hydrogen, and e-fuels to 25% of its energy production and sales by 2030," said Patrick Pouyanne, chairman and CEO, TotalEnergies. *Full report on www.indianexpress.com*

Goyal: Getting half-baked deal on TRIPS waiver

Geneva: Expressing concerns over the way some developed countries are nitpicking on the proposals to patent waiver to deal with Covid under the aegis of the WTO, Commerce Minister Piyush Goyal on Tuesday said nations that are supporting the proposal are getting completely "half-baked" deal and that will not allow them to make any vaccines.

Rejects fisheries subsidy text

Rejecting the current text on fisheries subsidy negotiations, he told on Tuesday said WTO members engaged in substantive fisheries subsidy talks, including any fund or subsidies for 25 years as they provide higher support measures and are indisputably exploiting the fish stock resources. Meanwhile, India strongly pitched for members for finding a permanent solution to the issue of public stock holding of agricultural food security programmes. PTI

AI acquisition of AirAsia India gets CCI green light

PRANAV MUKUL
NEW DELHI, JUNE 14

THE COMPETITION Commission of India (CCI) has cleared the acquisition of AirAsia India's entire equity stake by Tata group-owned Air India. Currently, Tata Sons, the holding company of the Mumbai-based conglomerate, holds 83.67 per cent stake in AirAsia India, while the remaining is held by Malaysia's AirAsia Bhd.

Formal approval

This is the first formal regulatory approval to Tata Group's plan to consolidate its aviation portfolio. Tata group and Tata Sons had acquired AirAsia Bhd in 2014. AirAsia India operates a low-cost airline [illegible] Tata group later launched full-service airline airline Vistara in a 51:49 joint-venture with Singapore Airlines and bought 100 per cent stake in Air India, along with its low-cost subsidiary Air India Express under the deal.

The organisation is expected to consolidate its operations and its portfolio.

It is also learnt to be meeting all its employees [illegible] Gurgaon.
