DAY TODAY

BY PETER VIDAL

ARIES (Mar 21 - Apr 20) The Sun is still urging you to have a reputation among astrologers for being lazy? Actually, I think you are misunderstood. The fact is that at times like these there'll be moments when you actually want to be alone. TAURUS (Apr 21 - May 21) If a promised move of home or major domestic change is held up for the next six months, the reason is that you should stay where you are and address fundamental questions. It may be that you need to work at a career relationship. Or it's possible that solid and substantial building work are necessary. Which is it to be? GEMINI (May 22 - June 21) I don't think that anyone should gamble with you at the moment. If they do, they must reckon on the fact that you're in a marital mood, and that you will therefore undoubtedly give as good as you get. You're so not about to give way gracefully if there's no reason to do so. CANCER (June 22 - July 21) Money matters would be settled, at least as far as short-term is concerned. You may now like to consider other questions, like where on earth you're going to go on holiday this year, if anywhere. You see, the important connections seem to be a long way away. LEO (July 24 - Aug 23) You can make great strides forward at this time. Hopefully personal matters may be put to one side. In that case, you could direct your thoughts towards the financial situation. There are indeed purchases to be made, but savings seem more perfectly to suit your mood. VIRGO (Aug 24 - Sep 23) Your purpose must be to renew bonds with individuals who have drifted apart. The chance of a dispute at work can be postponed with some fancy footwork and a few words of reassurance. The fact that a partner may be feeling uncomfortable with current arrangements is enough to encourage you to look at how they can be improved. PISCES (Feb 20 - Mar 20) Don't hang back or give away to a sudden attack of nerves. You have the chance to push yourself forward and say one more four weeks before a similar opportunity comes your way. Remember all my past advice about not being in a charm other people.
