The opening lead by West is the eight of diamonds. You have a excellent suit and are looking forward to taking anything better than nine tricks. Do you see any problem taking five tricks right away? Understand?

The West hand: ♠-989 H- 109854 D-82 C-QJ7
The South hand: ♠-J754 H-AJ2 D-KJ974 C-A2

It's time to become thinking. Partner ahead of the eight of diamonds probably showing a modified or possibly a singleton. South jumped to 2NT despite your overcall of 1D, indicating a stopper which means he probably has three or four diamonds to the South. What do you think you should do at setting the contract?

If your partner does not have clubs stopped, the contract could be nine tricks and the contract because of the six-card club suit in dummy. So we just need to make an assumption of what your partner will have in order for the contract to be set. What assumption do you make and how do you play to the first trick?

You can't assume that partner has either the ace of hearts or has also stopped a red because another diamond lead forces him to overtake the first diamond trick, play your ace of diamonds to overtake your partner to return a diamond for the setting suit trick.

Partner must regain the lead with his second clubs or else declarer can proceed to you. Your thoughtful play of clearing the first diamond trick put the stage for defeating the contract.

If it's your Birthday

Sunday July 2
It's a time for making choices, although whether you are truly ready to make important long-term decisions is another matter. If current issues focus around money, you're probably on the right track.

Monday July 3
There's no point in hurrying things unnecessarily. In other words, look before you leap, otherwise so much that has been built up could be thrown away.

Tuesday July 4
It's time to get things done and practical arrangements should take first place. Rather than starting off on brand new ventures, finish what you've begun.

Wednesday July 5
The Moon dominates everything about your life over the next few days, setting you on edge, in a positive way, but also encouraging you to bring your precious goals to fruition.

Thursday July 6
This is the time to venture forward, putting new irons in the fire and signalling your commitment to a new way of doing things.

Friday July 7
An enthusiastic Moon provides the perfect foil for your cautious spirit, dampening your ardour, but also enabling you to make rational decisions for a change.

Saturday July 8
You're in a restless phase, eager to find emotional sustenance from new people and fresh places, and to assert your independence.

YOUR WEEK AHEAD

ARIES (Mar 21 - Apr 20)
Give yourself the same support you normally give to others. You see, now that creative and individualistic influences in your chart are so strong, it's important that you stand out from the herd and insist that your creativity is recognised.

TAURUS (Apr 21 - May 21)
You may long to let up and lounge in a back seat while others take responsibility. Yet with the Sun, Moon, Mars and Pluto all lined up in significant sectors of your chart, you may have no choice but to gird your loins and stand up for yourself once again. More relaxed conditions will return soon.

GEMINI (May 22 - June 21)
Venus and Jupiter are an absolutely splendid combination of planets. In fact, rarely have your stars been so inherently prosperous. But unless you keep your eyes open, the opportunities may pass you by. You'll soon receive a small windfall.

CANCER (June 22 - July 23)
Some of your planets remain resolutely romantic, dreamy, imaginative, sensitive and, above all, fortunate in love. There'll be moments when artistic and creative Crabs will be on top of the world, perhaps because there really does seem to be the chance of a breakthrough.

LEO (July 24 - Aug 23)
You are bound to be caught up in events outside your control and you may as well accept that certain plans are bound to be postponed or delayed. No matter. The vacuum could be filled by excitement, drama and adventure beyond your wildest dreams.

VIRGO (Aug 24 - Sep 23)
You don't usually let the world see how astute you are, but your management of family members and younger relatives is to be admired. Now that other people are in such an emotional mood, they will turn to you as the one individual capable of maintaining order.

LIBRA (Sep 24 - Oct 23)
You may be tired of being singled out as the peacemaker, yet it's partly for your own peace of mind that you try to bring rivals and enemies together. This is a time of potential misunderstandings when it will be up to you to explain the truth and point out the facts.

SCORPIO (Oct 24 - Nov 23)
Emotional turbulence is being whipped up by some stormy and very rare celestial alignments. You would be advised to devote a great deal of attention to all secret activities, and to encourage people to speak their minds.

SAGITTARIUS (Nov 24 - Dec 23)
You may keep travel plans to a minimum, fulfilling only long-term arrangements. For some reason, work or even health questions, may cause you to change your ideas. Important decisions are due to arise from serious and emotionally-charged discussions, and a loved one can help look for the answers.

CAPRICORN (Dec 23 - Jan 20)
What a week this is, with all the planets at sixes and sevens. For once, though, your sign is steering clear of the celestial shock waves. You stand to benefit from gifts and generosity to an unprecedented degree. Romantic Goats can expect their dreams to be fulfilled.

AQUARIUS (Jan 21 - Feb 19)
There is everything to be gained from bending in the wind and much to be risked from refusing to compromise. Only if you are ready for anything, should you follow the impulsive path which seems to be such an obvious option. Remember that special people are depending on you.

PISCES (Feb 20 - Mar 20)
Fight for your principles, but not at the cost of alienating those whose support and sympathy are so important to you. Also, check all travel plans and be ready for the unexpected. Your romantic stars are excellent, and rapidly getting better, but you need to forget old fears, and stop worrying so much.
