Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 30 September 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. However, we are of the opinion that the company can make the Internal Controls on Financial Reporting more adequate and more effective considering the inherent risk and nature and size of the business activities carried out by the company.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

1 CORPORATE INFORMATION:

K.P.I. Global Infrastructure Limited ("the Company") was incorporated on 01/02/2008 as a Public Limited company domiciled in India. In the initial years, the company is engaged in the sale of land parcels to third parties, which were leased back for foraying into solar power generation. Afterwards, the Company became solar power generating Company focused on providing solar power, both as an Independent Power Producer ("IPP") under the brand name of 'Solarism' and as service provider to Captive Power Producer ("CPP") customers. During the period under reporting, the company has issued 1,30,556 equity shares having a Face value of Rs. 10/- per equity shares on a Preferential basis at Rs. 70/- including premium of Rs. 60/- per equity shares. During the year, the company has brought Initial Public Offer of 49,92,000 Equity shares having face value of Rs. 10/- each at a premium of Rs. 70/- per equity share, accordingly the equity shares of the Company has been listed on SME Platform of BSE limited on January 22, 2019.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

(i) Basis of preparation of Financial Statements :

These financial statements of the company have been prepared in accordance with the Generally Accepted Accounting Principles in India ('Indian GAAP') to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on accrual basis, except in case of assets for which provision for impairment for certain financial instruments which are measured at fair value.

All amounts included in the financial statements are reported in absolute figures of Indian Rupees.

(ii) Presentation and disclosure of financial statements :

During the year, the company has presented the financial statements as per the Schedule III notified under the Companies Act, 2013. The company has also reclassified the previous figures in accordance with the requirements applicable in the current year.

(iii) Use of Estimates :

The preparation of financial statements in conformity with Indian GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, if any at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(iv) Property, Plant and Equipment (AS 10) :

Property, plant and equipment are carried at cost of acquisition and other applicable costs less accumulated depreciation and accumulated impairment loss, if any. The cost of fixed assets includes cost of acquisition plus, any freight, taxes, duties and other incidental expenses that are directly attributable to bring the assets to their working conditions for their intended use. Borrowing costs directly attributable to the qualifying assets are capitalized as part of the cost. The costs of internally generated assets comprise direct costs attributed to the generation of the assets.

Capital work in progress comprises of the cost of fixed assets that are not yet ready for their intended use at the balance sheet date. Assets held for disposal, if any are stated at the lower of net book value and the estimated net realizable value.

When parts of the items of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to the property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

Gain / loss arising from de-recognition / sale / disposal of fixed assets are measured as the difference between the net disposal / sale proceeds and the carrying amount of the assets and are recognized in the statement of profit or loss when the asset is derecognized / disposed off.

Advances paid towards the acquisition of fixed assets, if any outstanding as of balance sheet date is disclosed under long term loans and advances. No assets have been revalued during the period.

(v) **Intangible Assets :**

Intangible assets are stated at the consideration paid for acquisition less accumulated amortization and accumulated impairment losses, if any.

Intangible assets, if any are amortized on a straight line basis over the estimated useful economic life.

Amortization methods and useful lives are reviewed periodically including at each financial year end.

(vi) **Borrowing Costs (AS 16):**

Borrowing cost primarily includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

(vii) **Depreciation / Amortization :**

Depreciation on tangible fixed assets is calculated on the Straight Line Method (SLM) based on the useful lives and residual values estimated by the management in accordance with Schedule II to the Companies Act, 2013. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset. No assets have been revalued during the period.

The company has used the following useful lives to provide depreciation on its tangible fixed assets.

Type of assets	Useful lives (in years)
Plant & machineries	15
Computers	3
Office equipments	5
Furniture and fixtures	10
Motor vehicles	8
Vehicles (2 wheelers)	10
Electrical installations	10

(viii) **Impairment of Tangible and Intangible Assets (AS 28):**

As per the estimates made by the management and as per the various assessments made by the management, there were no indicators whether internal or external (as provided in para 8 of AS 28) which has led to the impairment loss to any assets. Since there are no such indicators which suggest that the net value of the assets would fall significantly by passage of time and normal use, the company has not provided for any impairment loss for any assets during the current financial period. The company has chosen the "value in use" technic and as per the measurement of future cash flow, the management is of the opinion that the future cash flow and the terminal value of the assets would not be significantly less than the carrying value and hence no impairment for any assets has been provided for in the financial statements.

No reversal of impairment loss has been recognized in the Profit & loss Account.

Since the company has not carried out the activities in segments, the impairment loss or reversal of the impairment loss has not been provided for the segments.

In the opinion of the Board of Directors and to the best of their knowledge and belief the aggregate value of the current assets , loans and advances on realization in the ordinary course of business, will not be less than the amount at which they are stated in the Balance Sheet.

(ix) **Investments (AS 13):**

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value, if any is made to recognise a decline other than temporary in the value of the investments. On

disposal of an investment, if any, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

(x) Government grants and subsidies (AS 12):

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant / subsidy will be received.
When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset.
During the period, the Company has not applied for any Grants / subsidies related to the Revenue or specific Fixed Assets nor the Company has received any such Grants / subsidies during the period.

(xi) Inventories (AS 2):

Inventories of plots, consumables, components, work-in-progress, project work-in-progress are valued at the lower of cost and estimated net realisable value. Cost in case of work in progress is determined on the basis of the actual expenditure attributable to the said work till the end of the reporting period.

(xii) Revenue recognition (AS 9):

Revenue comprises sale of Solar Park plots which were leased back for foraying into solar power generation ("sale of plot"), sale of Captive Power Plant and sale of power generated through solar projects of the Company. Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and that the revenue can be reliably measured. The Company collects goods and services tax (GST) as applicable on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

Sales :

Revenue from sale of solar park plots, sale of solar power plant and sale of solar power generated by the company is recognised in the statement of profit and loss when the significant risks and rewards in respect of ownership of plots and power plants have been transferred to the buyer as per the terms of the respective agreement and possession has been handed over the buyer and the income can be measured reliably and is expected to be received. Revenue from sale of electricity (power) is recognised in the statement of profit and loss when the same is sold and transmitted to the customers. In case of sale of plots the registered sale deeds are not executed in the name of the buyers however, the company has transferred the physical possession of plots to the buyers and the possession receipts have been duly executed by the company in favour of buyers.

Interest income :

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

(xiii) Goods and Services Tax :

GST credit available on purchase of materials, purchase of capital goods and input services is not charged to cost of material, capital goods and services. GST Credit availed is accounted by way of adjustment against GST payable on outward taxable supply of goods and services.

(xiv) Retirement and other Employee benefits (AS 15) :

Defined contributions to Provident Fund are charged to the statement of Profit & Loss of the period, when the employee renders the related service. There are no other obligations other than the contribution payable to the respective statutory authorities.
The company does not pay Leave Salary on accumulated leaves. In accordance with the Payment of Gratuity Act, 1972, the company provides for an amount for gratuity to eligible employees, to be paid at retirement or termination of employees. The company has not recognized actuarial gain or loss in the statement of profit & loss.
No retirement benefits have been paid to any employee during the period by the company. Retirement benefits in the form of Gratuity and other long term / short term employee benefits have been provided in the financial statements.

(xv) **Foreign Exchange Transactions (AS 11):**

The Company has not entered into any Foreign Exchange Transactions during the period under consideration.

The company has not entered into any forward exchange contracts during the period.

(xvi) **Taxation (AS 22):**

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current period and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in the period is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT credit entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period in future. Separate and detailed calculation of deferred tax is appended in notes.

(xvii) **Provisions and Contingent Liabilities, Contingent Assets (AS 29):**

A provision is recognised when the Company has a present obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions of various expenses are recognized in the financial statements since there exists present obligations as a result of event and the expenses are accrued and incurred during the period.

The opening balance of provisions are used during the period against the payments during the period. The closing balances of provisions are the expenses accrued during the period and provided.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the

Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably.
The Company does not recognise a contingent liability but discloses its existence in the financial statements unless the possibility of an outflow is remote.
A contingent asset is not recognized in the financial statements and hence not disclosed.

(xviii) Earning / (loss) per share (AS 20) :

Basic earnings / (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period and also after the balance sheet date but before the date the financial statements are approved by the board of directors for the purpose of calculating diluted earnings / (loss) per share. The net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.
The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares if any as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

(xix) Cash and Cash Equivalents :

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank and in hand, cheques on hand and short-term investments with an original maturity of three months or less.

(xx) Operating leases :

Where the Company is a lessee in sale and lease back transaction :

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on the basis of the lease (rent agreements). Initial direct costs such as legal costs, brokerage costs, etc. if any, are recognised immediately in the statement of profit and loss. Any profit or loss arising out of sale and lease back transaction is recognized immediately when sale price is equal to fair value.

Notes: The Company has filed an appeal before the Appellate authorities in respect of the disputed matter under the Income Tax Act, 1961 and the appeal is pending with the appellate authority. Considering the facts of the matters and other legal pronourcements of jurisdictional HC, no provision is considered necessary by the management because the management is hopeful that the matter would be decided in favour of the Company in the light of the legal advice obtained by the company. However, the company has paid Rs. 4,48,000/- and Rs.13,52,125/- under protest which is shown by way of deduction from the total tax demand for A.Y. 2014 -15 and A.Y. 2015 - 16 respectively and only the net amount is mentioned.

47. Capital and other commitments :

There are no contracts remaining to be executed on Capital account and hence no provision has been made on this account.

The Company has no obligation on account of non-fulfilment of export commitments under various advance licenses during the reporting period and hence no provisions have been made.

48. Accounting policies not specifically referred to otherwise are consistent and in consonance with the generally accepted accounting policies. (GAAP).

49. The previous year's figures have been regrouped or reclassified wherever necessary to confirm with the current period's presentation.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
K.P.I. GLOBAL INFRASTRUCTURE LIMITED

Report on the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of K.P.I. GLOBAL INFRASTRUCTURE LIMITED ("the company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss, and Statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information. (hereinafter referred to as "the standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules. 2006 and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020 and profit and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the companies Act, 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to the Key Audit Matters to be communicated in our report.

Sr. No.	Key Audit Matter	How the matter was addressed in our audit
1.	Evaluation of uncertain Tax positions The company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of	Obtained details of completed Income tax assessment and demand as on March 31, 2020 from management. We involved our internal experts to challenge the management's underlying assumptions in estimating the tax provision and the possible outcome of the dispute. Our internal experts also considered legal precedence and other rulings in evaluating management's position on the uncertain tax

	the said dispute. Refer Note No. 43 to the standalone financial statements	position. Additionally, we considered the effect of new information in respect of uncertain tax position as at 01.04.2019 to evaluate whether any change was required to management's position on this uncertainties.

Other Information

The company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the company's annual report, management discussion and analysis, Board's report including Annexures to Board's report but does not include the standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated / inconsistent.

If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Director's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards specified under Section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit

conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by management and the Board of Directors.

- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Authorised

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013 we give in the **"Annexure-A"**, a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit ;

   b. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books ;

   c. The standalone Balance Sheet, the standalone Statement of Profit and Loss, and the standalone Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account;

   d. In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 ;

   e. On the basis of written representations received from the directors as on 31st March, 2020, taken on record by the Board of Directors, none of the directors are disqualified as on 31st March, 2020, from being appointed as a director in terms of Section 164(2) of the Act; and

   f. With respect to the adequacy of the internal financial controls over financial reporting of financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

   (B) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act :

   In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of section 197 of the Act.

KPL GLOBAL INFRASTRUCTURE LTD.

Authorised

The remuneration paid to any director is not in excess of the limits laid down under section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.

(C) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

1. The Company has disclosed the impact of pending litigations as at 31ST March, 2020 on its financial position in its standalone financial statements – Refer Note 47 to the financial statements.

2. The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.

3. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE A

To the Independent Auditor's Report on the Standalone financial statements of K.P.I. GLOBAL INFRASTRUCTURE LIMITED for the year ended March 31, 2020.

(Referred to in paragraph 1 under the heading "Report on other legal and regulatory requirements" section of our report of even date)

I.

a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
b. The company has a regular programme of physical verification of its assets by which all assets are verified in a phased manner over a period of 2 years. In accordance with this programme, a portion of fixed assets has been physically verified by the management during the year and no material discrepancies have been noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the company and the nature of its assets.
c. According to the information and explanations given by the management, the title deeds of immovable properties as disclosed in Note No. 13 "Tangible Assets" under "Property Plant and Equipments" to the Standalone Financial Statements, are held in the name of the Company.

II.

a. The management has conducted physical verification of inventory except goods-in-transit at reasonable intervals during the year.
b. The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business. In respect of inventory lying with third parties, these have substantially been confirmed by them.
c. The Company is maintaining proper records of inventory and no material discrepancies with book records were noticed on physical verification.

III. According to the information and explanations given to us, the Company has not granted loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, provisions of clauses 3(iii) (a), (b) & (c) of the Order are not applicable to the Company and hence not commented upon.

IV. The company has not granted any loans or provided any guarantees or security to the parties covered under section 185 of the Act. The company has complied with the provisions of Section 186 of the Act, in respect of investments made, or loans or guarantee or security provided to the parties covered under section 186.

V. According to information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of directives issued by Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant Rules framed thereunder. Hence, the provisions of clause 3(v) of the Order are not applicable to the Company and hence not commented upon.

VI. The provisions of The Companies (Cost Records and Audit) Rules, 2014 as amended by the Companies (cost records and audit) Amendment Rules, 2016 read with provisions of Sec. 148(1) of

The Companies Act, 2013 for the maintenance of cost records a r e not applicable to the company. Hence the Company is not required to maintain Cost Records and hence not required to get the cost audit done as per the provisions of The Companies (Cost Records and Audit) Rules, 2014

VII.

a. According to the information and explanations given to us and the records of the company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues including provident fund, employees' state insurance, income-tax, customs duty, GST, cess, professional tax and other material statutory dues applicable to it, with appropriate authorities. However, there has been a slight delay in few cases.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, Income tax, customs duty, GST, cess, professional tax and other material statutory dues were in arrears as at March 31, 2020 for a period of more than six months from the date they became payable.

b. According to the information and explanations given to us, the company has not deposited the following dues under the Income Tax Act, 1961 due to the disputes.

In ₹ Lakh

Nature of statute	Nature of Dues	Amount unpaid (in Lakhs Rupees)	Period to which the Amount relates (Assessment Year)	Forum where Dispute is pending
Income Tax Act, 1961	Income Scrutiny Tax Assessment U/S. 143(3)	308.77	2016-2017	Commissioner Of Income Tax-(Appeals)-1, Surat
Income Tax Act, 1961	Income Scrutiny Tax Assessment U/S. 143(3)	74.22 (87.74 – 13.52 paid)	2015-2016	Commissioner Of Income Tax-(Appeals)-1, Surat

VIII. Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of dues to banks and Financial Institution. The Company had no Debentures issued or outstanding during the period.

IX. During the year under reporting, the company has not raised any money by way of Initial Public Offer (IPO) or Further Public Offer (FPO) including any debt instruments. However, during the year under reporting, the company has taken term loan and short term working capital loans from financial institutions and Bank. In our opinion and explanations given to us, the money raised by the company have been applied for the purposes for which they were raised.

X. According to the information and explanations given to us, no fraud by the company or on the company by its officers or employees has been noticed or reported during the course of our audit.

XI. According to the information and explanations given to us and based on our examination of the

records of the Company, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

XII. In our opinion and according to the information and explanations given to us, the company is not a Nidhi company. Accordingly, the provisions of clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.

XIII. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Section 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the notes to the standalone financial statements as required by the applicable accounting standards.

XIV. According to the information and explanations given to us and based on our examinations of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the provisions of clause 3(xiv) of the Order are not applicable to the Company and hence not commented upon.

XV. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, the provisions of clause 3(xv) of the Order are not applicable and hence not commented upon.

XVI. According to the information and explanations given to us, the company is not required to be registered under section 45 IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of clause 3(xvi) of the Order are not applicable to the Company and hence not commented upon.

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion:

We have audited the internal financial controls with reference to Financial statements of **K.P.I. GLOBAL INFRASTRUCTURE LIMITED** ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to the financial statements and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management and Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective policies of the Company, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to the financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to financial statements was established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting with reference to financial statements included obtaining an understanding of such internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting with reference to the financial statements of the Company.

Meaning of Internal Financial Controls over Financial Reporting with reference to Financial Statements

A company's internal financial control over financial reporting with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting with reference to the Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to the Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to the financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1 CORPORATE INFORMATION :

K.P.I. Global Infrastructure Limited ("the Company") was incorporated on 01/02/2008 as a Limited company domiciled in India. Its shares are listed on BSE SME platform. The company is Solar Power generating company focused on providing solar power and power plants through different business verticals. The company develops, builds, owns, operates and maintains solar power plants as an Independent Power Producer (IPP) and Captive Power Producers (CPP) , both under the brand name of 'Solarism'. Both these businesses, IPP and CPP are currently carried out at plant located at Sudi, and Tanchha Village, Amod, Bharuch, Gujarat (Solarism Plant).

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES :

(i) Basis of preparation of Financial Statements :

These financial statements of the company have been prepared in accordance with the Generally Accepted Accounting Principles in India ('Indian GAAP') to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on accrual basis, except in case of assets for which provision for impairment for certain financial instruments which are measured at fair value.

All amounts included in the financial statements are reported in Lacs of Indian Rupees except wherever absolute figure of Indian Rupees mentioned.

(ii) Presentation and disclosure of financial statements:

During the year end 31ST March 2020, the company has presented the financial statements as per the Schedule III notified under the Companies Act, 2013. The company has also reclassified the previous figures in accordance with the requirements applicable in the current year.

(iii) Use of Estimates :

The preparation of financial statements in conformity with Indian GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, if any at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19):

The COVID-19 pandemic is an evolving human tragedy declared a global pandemic by the World Health Organisation with adverse impact on economy and business. Supply Chain disruptions in India as a result of the outbreak started with restrictions on movement of goods, closure of borders etc., in several states followed by a nationwide lockdown from the 25th of March 2020 announced by the Indian Government, to stem the spread of COVID-19. Due to this the operations at various sites of the Company has been temporarily disrupted. However, the Company's electric power sale business was not much affected and is considered essential services in these challenging times.

In light of these circumstances, the Company has considered the possible effects that may result from COVID-19 on the carrying amounts of financials assets, inventory, receivables, advances, property plant and equipment, Intangibles etc. as well as liabilities accrued. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Company has used internal and external information such as current contract terms, financial strength of partners, investment profile, future volume estimates from the business etc. Having reviewed the underlying data and based on current estimates the Company expects the carrying amount of these assets will be recovered and there is no significant impact on liabilities accrued. The impact of COVID-19 on the Company's financial statements

may differ from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

(iv) **Property, Plant and Equipment (AS 10) :**

Property, plant and equipment are carried at cost of acquisition and other applicable costs less accumulated depreciation and accumulated impairment loss, if any. The cost of fixed assets includes cost of acquisition plus, any freight, taxes, duties and other incidental expenses that are directly attributable to bring the assets to their working conditions for their intended use. Borrowing costs directly attributable to the qualifying assets are capitalized as part of the cost. The costs of internally generated assets comprise direct costs attributed to the generation of the assets.

Capital work in progress comprises of the cost of fixed assets that are not yet ready for their intended use at the balance sheet date. Assets held for disposal, if any are stated at the lower of net book value and the estimated net realizable value.

When parts of the items of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to the property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

Gain / loss arising from de-recognition / sale / disposal of fixed assets are measured as the difference between the net disposal / sale proceeds and the carrying amount of the assets and are recognized in the statement of profit or loss when the asset is derecognized / disposed off.

Advances paid towards the acquisition of fixed assets, if any outstanding as of balance sheet date is disclosed under long term loans and advances. No assets have been revalued during the period.

(v) **Intangible Assets :**

Intangible assets are stated at the consideration paid for acquisition less accumulated amortization and accumulated impairment losses, if any.

Intangible assets, if any are amortized on a straight line basis over the estimated useful economic life.

Amortization methods and useful lives are reviewed periodically including at each financial year end.

(vi) **Borrowing Costs (AS 16):**

Borrowing cost primarily includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

(vii) **Depreciation / Amortization :**

Depreciation on tangible fixed assets is calculated on the Straight Line Method (SLM) based on the useful lives and residual values estimated by the management in accordance with Schedule II to the Companies Act, 2013. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset. No assets have been revalued during the period.

The company has used the following useful lives to provide depreciation on its tangible fixed assets.

Type of assets	Useful lives (in years)
Plant & machineries	15
Computers	3
Office equipments	5
Furniture and fixtures	10
Motor vehicles	8
Vehicles (2 wheelers)	10
Electrical installations	10

(viii) **Impairment of Tangible and Intangible Assets (AS 28):**

As per the estimates made by the management and as per the various assessments made by the management, there were no indicators whether internal or external (as provided in para 8 of AS 28) which has led to the impairment loss to any assets. Since there are no such indicators which suggest that

the net value of the assets would fall significantly by passage of time and normal use, the company has not provided for any impairment loss for any assets during the current financial period. The company has chosen the "value in use" technic and as per the measurement of future cash flow, the management is of the opinion that the future cash flow and the terminal value of the assets would not be significantly less than the carrying value and hence no impairment for any assets has been provided for in the financial statements.

No reversal of impairment loss has been recognized in the Profit & loss Account.

Since the company has not carried out the activities in segments, the impairment loss or reversal of the impairment loss has not been provided for the segments.

In the opinion of the Board of Directors and to the best of their knowledge and belief the aggregate value of the current assets, loans and advances on realization in the ordinary course of business, will not be less than the amount at which they are stated in the Balance Sheet.

(ix) **Investments (AS 13):**

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value, if any is made to recognise a decline other than temporary in the value of the investments. On disposal of an investment, if any, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

(x) **Government grants and subsidies (AS 12):**

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant / subsidy will be received.

When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset.

During the period, the Company has not applied for any Grants / subsidies related to the Revenue or specific Fixed Assets nor the Company has received any such Grants / subsidies during the period.

(xi) **Inventories (AS 2):**

Inventories of plots, consumables, components, work-in-progress, project work-in-progress are valued at the lower of cost and estimated net realisable value. Cost in case of work in progress is determined on the basis of the actual expenditure attributable to the said work till the end of the reporting period.

(xii) **Revenue recognition (AS 9):**

Revenue comprises sale of Solar Park plots, sale of power plant and sale of solar power generated by the Company. Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and that the revenue can be reliably measured. The Company collects goods and services tax (GST) as applicable on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

Sales :

Revenue from sale of solar park plots and sale of power plant is recognised in the statement of profit and loss when the significant risks and rewards in respect of ownership of plots and power plants have been transferred to the buyer as per the terms of the respective agreement and possession has been handed over to the buyer and the income can be measured reliably and is expected to be received. Revenue from sale of electricity (power) is recognised in the statement of profit and loss when the same is sold and transmitted to

the customers. In case of sale of plots the registered sale deeds are not executed in the name of the buyers however, the company has transferred the physical possession of plots to the buyers and the possession receipts have been duly executed by the company in favour of buyers.

Interest income :
Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

(xiii) **Goods and Services Tax :**
GST credit available on purchase of materials, purchase of capital goods and input services is not charged to cost of material, capital goods and services. GST Credit availed is accounted by way of adjustment against GST payable on outward taxable supply of goods and services.

(xiv) **Retirement and other Employee benefits (AS 15) :**
Defined contributions to Provident Fund are charged to the statement of Profit & Loss of the period, when the employee renders the related service. There are no other obligations other than the contribution payable to the respective statutory authorities.
The company does not pay Leave Salary on accumulated leaves. In accordance with the Payment of Gratuity Act, 1972, the company provides for an amount for gratuity to eligible employees, to be paid at retirement or termination of employees. The company has not recognized actuarial gain or loss in the statement of profit & loss.
No retirement benefits have been paid to any employee during the period by the company. Retirement benefits in the form of Gratuity and other long term / short term employee benefits have been provided in the financial statements.

(xv) **Foreign Exchange Transactions (AS 11):**
The Company has not entered into any Foreign Exchange Transactions during the period under consideration.
The company has not entered into any forward exchange contracts during the period.

(xvi) **Taxation (AS 22):**
Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current period and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority. Separate and detailed calculation of deferred tax is appended in notes.

Minimum alternate tax (MAT) paid in the period is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT credit

entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period in future. In view of the recent amendment in the Income Tax Act, 1961, the company has opted for the accumulated MAT credit to be forgone and opted for the lower tax regime as applicable to the company for the year under reporting and for all subsequent financial years.

(xvii) Provisions and Contingent Liabilities, Contingent Assets (AS 29):

A provision is recognised when the Company has a present obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions of various expenses are recognized in the financial statements since there exists present obligations as a result of event and the expenses are accrued and incurred during the period.

The opening balance of provisions are used during the period against the payments during the period. The closing balances of provisions are the expenses accrued during the period and provided.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably.

The Company does not recognise a contingent liability but discloses its existence in the financial statements unless the possibility of an outflow is remote.
A contingent asset is not recognized in the financial statements and hence not disclosed.

(xviii) Earning / (loss) per share (AS 20) :

Basic earnings / (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period and also after the balance sheet date but before the date the financial statements are approved by the board of directors for the purpose of calculating diluted earnings / (loss) per share. The net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares if any as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

(xix) **Cash and Cash Equivalents :**

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank and in hand, cheques on hand and short-term investments with an original maturity of three months or less.

(xx) **Operating leases :**

Where the Company is a lessee in sale and lease back transaction:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on the basis of the lease (rent agreements). Initial direct costs such as legal costs, brokerage costs, etc. if any, are recognised immediately in the statement of profit and loss. Any profit or loss arising out of sale and lease back transaction is recognized immediately when sale price is equal to fair value.

Dear Sir,

Credit rating for Bank Facilities of Rs.127.33 crore

Please refer to our letter dated November 25, 2020, on the above subject.

1. The rationale for the ratings is attached as **Annexure - I**.
2. We request you to peruse the annexed documents and offer your comments, if any. We are doing this as a matter of courtesy to our clients and with a view to ensure that no factual inaccuracies have inadvertently crept in. Kindly revert as early as possible. In any case, if we do not hear from you by December 9, 2020, we will proceed on the basis that you have no comments to offer.

If you have any further clarifications, you are welcome to approach us.

Thanking you,

Yours faithfully,

Detailed Rationale & Key Rating Drivers

The ratings assigned to the bank facilities of KPI Global Infrastructure Limited (KPIL) continue to remain underpinned by experienced promoter group, favorable location of the solar power plant along with established infrastructure for power evacuation resulting in satisfactory capacity utilisation factor (CUF), low off-take and counterparty credit risk on account of long-term Power Purchase Agreements (PPA) with reputed corporates and timely receipt of monthly payments.

The ratings also derive strength from healthy growth in its total operating income (TOI) during FY20 (refers to the period April 01 to March 31) and H1FY21 (refers to the period April 01 to September 30) with healthy profitability, moderate debt coverage indicators, adequate liquidity position and favorable policy framework for solar power generation business on the back of various government-led reforms & incentives to encourage investments in this segment. The

[1]*Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.*

ratings also take cognizance of ring fencing and defined waterfall mechanism of cash flows from its 25-MW solar power plant through setting up a Trust & Retention Account (TRA) along with partial creation of Debt Service Reserve Account (DSRA) in the form of fixed deposits.

The ratings, however, continue to remain constrained on account of limited operational track record of its recently commissioned 25-MW power plant, risks pertaining to terms and continuity of PPAs, susceptibility of its profitability to fluctuation in the interest rates and variation in climatic conditions & technological risk associated with the solar power plants. The ratings are further constrained on account of implementation and stabilization risk associated with its upcoming solar capacity of 40 MW (20 MW in KPIL and 20 MW in its wholly-owned subsidiaries), leveraged capital structure which is envisaged to deteriorate even further due to ongoing debt-funded capex along with working capital intensive nature of operations in its captive power plant (CPP) segment.

CARE also takes cognizance of the company availing the moratorium granted by its lenders as a COVID-19 relief measure (as permitted by the Reserve Bank of India) on debt repayment of its bank facilities (except for project debt of its 25-MW solar power plant).

Key Rating Sensitivities

Positive Factors:

- Achievement of CUF level of more than 20% on a sustained basis.
- Successful commissioning and stabilization of the upcoming 40-MW project without any significant time or cost overrun.
- Sustained increase in its CPP sales to beyond Rs.50 crore with healthy profitability.

Negative Factors:

- Delays in receipt of payments from off takers on a sustained basis leading to increase in working capital cycle.
- Reduction in CUF levels below 16% on sustained basis.
- Deterioration in credit risk profile of the off-takers.
- Any major debt-funded capex resulting in deterioration of overall gearing to more than 2x.

KPI GLOBAL INFRASTRUCTURE LTD. Authorised

- Non-compliance of sanction covenants including maintenance of various reserves and DSRA (equivalent to 2 quarters of debt servicing).

Detailed description of the key rating drivers

Experienced promoter group

KPIL is a part of the Surat-based KP group, which has diversified operations in Renewable Energy (Solar & Wind) segment. Since inception, the group has executed more than 100 MW of solar power plants under engineering, procurement and construction (EPC) mode. Mr Faruk Patel, Chairman & Managing director of KPIL, has an experience of more than 18 years in diversified sectors including solar and wind energy space. The Chief Operating Officer (COO) of the company, Mr Shaheedul Hasan holds a bachelor's degree in Engineering and an experience of 28 years in the telecom and solar power industry.

The group has diversified operations in the Renewable Energy (Solar & Wind) segment through its other group entities KP Buildcon Private Limited and KP Energy Limited (rated 'CARE BBB-; Negative/CARE A3'), which are engaged in the construction of solar power projects on EPC basis and execution of wind-based renewable power projects, respectively. Existing infrastructure and experience of the promoter group helps KPIL in setting up as well as operate solar power projects.

Favorable geographical presence of the solar power plant along with established power evacuation infrastructure

The entire solar power capacity of 40 MW is located at Sudi & Tanchha village, Bharuch, Gujarat. The site has good irradiation levels and easy availability of water for maintenance requirements. Furthermore, the project is erected on black cotton soil land, which results in comparatively lower dust, which in turn reduces annual maintenance cost and betters CUF levels.

KPIL has set up a 13.25 km long 220 KV double conductor transmission line which is capable of transmitting up to 100 MW of power. The infrastructure is utilized to transmit power generated from capacity erected under both IPP as well as CPP segment. As on September 30, 2020, KPIL has obtained evacuation approval from GETCO for transmitting power up to 74 MW through

KPI GLOBAL INFRASTRUCTURE LTD. Authorised

the said transmission line. KPIL has also signed the connectivity agreement and O&M agreement with GETCO for a period of 25 years for the 220 KV transmission line.

Satisfactory operational performance of existing 40 MW solar power plant

KPIL has commissioned solar power capacity in a phased manner over 2016-2019, of which 15 MW was commissioned in January 2019, while 25 MW was commissioned in November 2019. During FY20, the plant generated satisfactory CUF of 19.10% as against CUF of 19.01% in FY19. The total units increased from 1.87 crore units to 4.61 crore units during FY20. The CUF during Q1FY21 (refers to the period April 01 to June 30) remained healthy at 21.58% as against 20.43% during Q1FY20.

Low off-take and counterparty risk along with healthy per unit revenue realisation

KPIL has entered into multiple long-term PPAs with reputed corporates having a strong credit profile in a range of 3 years (option to renew till 15 years) to 20 years. Presence of long-term PPA with a strong counterparty ensures timely receipts of payments and cash-flow sustainability.

KPIL offers a discount of approximately 7% on the prevailing per unit price of the power charged by the DISCOMs. The revenue per unit during FY20 remained healthy at Rs.6.41 (PY: Rs.6.45/unit). The linkage of per unit price to DISCOM rates is beneficial to the customers as it saves their power cost without any capital investment. Furthermore, KPIL gets compensated by the DISCOMs at APPC (Average Pooled Purchase Cost) rate for units injected in the grid but

GLOBAL INFRASTRUCTURE LTD. Authorised

remain unutilized by the customers. As a result, KPIL's tariff realisation is much higher than the solar power producers selling power under the fixed tariff base. Nevertheless, as per the terms of PPA, the transmission charges and transmission losses are borne by KPIL.

Healthy growth in its scale of operations along with stable profitability

During FY20, KPIL's TOI reported a healthy y-o-y growth of over 72% on account of its 25-MW power plant becoming operational along with significant increase in its CPP sales. Power sales more than doubled from Rs.11.17 crore in FY19 to Rs.27.88 crore during FY20, whereas CPP sales registered a healthy y-o-y growth of over 50% to Rs.25.95 crore.

Detailed break-up of TOI is tabulated below:

(Rs. Crore)

Particulars	FY18	FY19	FY20
Sale of plot of land	19.62	5.71	5.45
Sale of Solar Power (IIP)	7.96	11.17	27.88
Sale of Power Plant (CPP)	3.98	17.03	25.95

The PBILDT margin during FY20 remained largely stable at 45.30% registering a marginal y-o-y increase of 78 bps. However, due to significant depreciation charge, higher interest expenses and provision of deferred tax, PAT margin, albeit declined, remained moderate at 10.91% (FY19: 25.75%). However, KPIL reported a healthy gross cash accruals (GCA) of Rs.19.48 crore during FY20 as compared with Rs.8.07 crore in FY19.

During H1FY21 (Provisional), KPIL reported a TOI of Rs.41.76 crore, registering a healthy y-o-y growth of 67% as compared with H1FY20. Furthermore, due to increase in high margin IPP power sales, the PBILDT margin during H1FY21 improved to 50.69% as compared with 38.61% during H1FY20.

Leveraged capital structure and moderate debt coverage indicators

KPIL's overall gearing was envisaged to deteriorate on account of ongoing debt-funded 25-MW solar power plant in FY20. However, the deterioration was much higher than envisaged to 1.42x as at FY20 end (0.40x as at FY19 end) due to increase in the working capital intensity of CPP segment which was met by working capital borrowings. Going forward, the capital structure is envisaged to deteriorate even further due to ongoing debt-funded 20-MW capex plan. Debt

KPI GLOBAL INFRASTRUCTURE LTD. Authorised

coverage indicators, however, remained moderate marked by an interest coverage of 3.64x (PY: 4.33x) and total debt to GCA of 7.13x (PY: 4.95x).

Favorable renewable energy framework with stable industry outlook

There is great thrust from government for improving the share of solar power in India's overall power mix which is reflected from various policy initiatives. During 2019-2020, the addition to generation capacity (conventional & renewable) was around 13.9 GW which was 58% of the target for the year as per Central Electricity Authority of India (CEA). While capacity addition by conventional power sources in 2019-20 stood at 4.8 GW, grid connected renewable sources has outpaced the target by 77% with addition of 9.1 GW. The total installed generation capacity as at the end of 2019-20 stood at 86.7 GW for renewable energy.

Furthermore, there is great thrust from the government for improving the share of solar power in India's overall power mix which is reflected from various policy initiatives. Further, looking at the already allotted capacity and government's push for achieving targeted solar capacity of 100 GW by end FY22, capacity additions are likely to improve in next two to three years.

Solar projects have relatively lower execution risks, stable long-term revenue visibility with long-term off-take arrangements at a fixed tariff, minimal O&M requirements, must run status of solar power projects and upward revision in solar Renewable Purchase Obligation (RPO) achievement targets. However, there are concerns like increased difficulties in land acquisition, poor evacuation infrastructure, very high dependence on imported solar cells & modules, regulatory haze in terms of renegotiation of tariff in concluded PPAs and cancellation of concluded auctions, weak financial risk profile of few Discoms resulting in significant delays in payment and increased difficulties in debt tie-up.

Further, due to COVID-19 and its consequent lockdown, electricity consumption saw a sharp reduction in the country despite the supply of the same being outside the ambit of the lockdown as power is an essential service. Electricity demand and generation has fallen to 5-year lows during April-May 2020. The fall in demand has led to a decline in power generation; particularly from the leading source, i.e., coal-based power plants thus pulling down the capacity utilization of these power plants to record lows. Given the mandated must run status of renewable energy, generation from these sources saw an increase year on year.

Overall, positive and negative developments in the sector counterbalance each other, thereby resulting in a stable outlook.

Implementation & stabilization risk associated with its upcoming 40 MW solar capacity expansion

KPIL is setting up an additional 20-MW solar power plant near the existing solar power plant at an estimated project cost of Rs.76 crore, to be funded entirely through debt. KPIL has given EPC contract for entire capacity to a third party and has achieved financial closure for the project. As on November 02, 2020, KPIL had incurred total project cost of Rs.49.30 crore, which has been funded through project creditors.

As on November 02, 2020, KPIL has already completed work of 12 MW, of which commissioning certificate for 2.12 MW has been received. KGIL expects the project to be fully commissioned and operational by February 2021, as the company has signed long-term PPAs for 16 MW.

KPIL is also setting up another 20-MW solar power capacity in its two wholly-owned subsidiaries, i.e., KPIG Energia Pvt Ltd (KPIGEPL; 12 MW) & Sundrops Energia Pvt Ltd (SEPL; 8 MW). The total project cost is estimated at Rs.91.10 crore, to be funded in debt:equity ratio of 1.90:1. Project under both subsidiaries is envisaged to be commissioned by December 2021. Financial closure for KPIGEPL has been achieved, while that of SEPL is under progress. The debt availed by KPIGEPL has been guaranteed by KPIL. Of the total equity commitment of Rs.31.34 crore, Rs.10.61 crore has already been infused in FY20 from internal accruals and balance funds shall be infused in FY21-FY22.

Considering the size of the projects, completion of the project within envisaged time and cost parameters and stabilization of operations by achieving envisaged CUF level shall remain crucial.

Risk pertaining to terms and continuity of PPA agreement

The PPA executed by KPIL does not have a lock-in period and it can be terminated by either party by giving 6-12 months' notice. Furthermore, in case of few contracts, the PPA is to be renewed after three years. Consequently, KPIL is exposed to the risk arising out non-continuity by any of the customer in the long term.

Apart from above, KPIL has also provided minimum generation guarantee which is 20% of the expected output each year, adjusted proportionately for solar irradiation. However, the risk is partly offset by charging higher rate per unit of solar power, as compared to peers.

Susceptibility of power generation to climatic conditions along with technological risk

The power generation level of a solar power plant primarily depends upon factors like solar radiation levels, temperature & climatic conditions and transmissions efficiency of the plant and inverters installed, module aging and degradation, etc. While losses in photovoltaic (PV) systems, design parameters, inverter efficiency and module degradation depend on the overall manufacturing pattern and technical soundness of the modules, solar radiance levels and overall climatic conditions are beyond human control and thus have the potential to adversely affect the operational efficiency of a solar power plant. Although the modules and other equipment have been sourced from reputed suppliers, technological risk persists for the project duration. Further, the project is based on thin film photovoltaic (PV) solar cells technology, which has a relatively short performance track record in Indian conditions and consequently achievement of envisaged CUF levels remains crucial.

Interest rate fluctuation risk

The interest rate for the project debt is floating in nature thereby exposing the company to fluctuations in the interest rates. Any adverse movement of interest rate could hamper the company's financial profile and eventually its debt servicing capabilities.

Liquidity: Adequate

The liquidity position of KPIL is adequate marked by free cash and bank balance of Rs.10.28 crore as on March 31, 2020, and generation of healthy GCA of Rs.19.48 crore during FY20. Average utilisation of its fund-based working capital limits for the trailing 12 months ended August 2020 remained moderate at 82%. KGIL is required to create a DSRA of equivalent to two quarters of debt and interest servicing (approximately Rs.7.50 crore) for the 25-MW project out of project surplus. As on November 6, 2020, KPIL had created DSRA of Rs.1.98 crore in the form of fixed deposit.

KPI GLOBAL INFRASTRUCTURE LTD. Authorised

The working capital cycle during FY20 elongated to 255 days (PY: 208 days) primarily on account of increase in the receivables and inventory levels. Owing to COVID-19, receivables from CPP customers could not be realized in March 2020, while increase in inventory levels is due to the ongoing 20-MW IPP solar plant, which has been classified under WIP.

Going forward, liquidity is envisaged to remain adequate considering defined cash flow mechanism in place through TRA and cash accruals of around Rs.32-42 crore as against equity commitments of Rs.7-14 crore and fixed debt repayment obligations of Rs.10-18 crore.

About the Company

Incorporated on February 01, 2018, KPIL is engaged in the generation of solar power, both as an IPP and CPP under the brand name of 'Solarism' at Sudi & Tanchha village, Amod, Bharuch, Gujarat.

In 2016, KPIL commissioned its first solar power plant (Unit I) of 5 MW on a leased land and in 2017, KPIL commissioned another solar power plant of 10 MW on owned land. Furthermore, KPIL additional solar capacity of 25 MW in November 2019 at the same location. Currently, KPIL is undertaking commissioning of solar power plants of 20 MW and another 20 MW in its subsidiaries at the same project location.

KPIL also develops, transfer, operate and maintain grid connected solar power projects for CPP customers and generate revenue by selling these projects to third parties for their captive use requirements. By the end of September 2020, KPIL has successfully completed CPP project of 8.45-MW capacity of solar power plant and has entered into LOI's for additional 6.64 MW.

About CARE Ratings:
CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

APPROACH & METHODOLOGY FOR ESTABLISHMENT OF THE POWER TRADING ARRANGEMENT

1. BACKGROUND

KPI Global Infrastructure Ltd (KPI) is an established Solar Power Developer and have developed more than 65MW solar power plant (the project name is *Solarism*) at Vill: Sudi, Ta: Amod in Bharuch District under Third Party Sale option through bilateral PPA. KPI is either selling the solar power to 3rd Party by getting into bilateral PPAs.

With announcement of latest Gujarat Solar Power Policy 2021 giving several incentives, there are small investors willing to invest as IPP in solar starting from as low capacity as 500KWp under 3rd party option. KPI, being an established company having all the technical and regulatory knowhow and selling solar power since last more than 6 years, is well placed to help such small investors by purchasing power from them and selling it to the end users through bilateral PPAs.

The Solar Policy encourages use of common evacuation facilities by adjoining developers as envisaged in the **Gujarat Solar Policy 2021 whose Clause No. 20.3 'Evacuation Facilities',** states that:

> *"To optimize costs, Common dedicated transmission line shall be encouraged for cluster of adjoining Developers with appropriate metering at their respective end of project as well as a common meter for such SPGs at the receiving end at CTU Interface/ STU substation/ 11 kV system of DisCom. Energy injection by each SPG at the receiving end shall be worked out on the basis of meter reading of common meter appropriately apportioned as per the respective meter reading at the sending end meter of that SPG by SLDC."*

2. APPROACH & METHODOLOGY

The approach & methodology adopted is illustrated in the below schematic diagram:

ડીસાના રસાણા ગામની કોલેજના

વિદ્યાર્થીના આપઘાત કેસમાં ઉ.ગુ. યુનિ. દ્વારા તપાસ સમિતિ બનાવાઈ

પાટણ, તા.૩

ડીસાના રસાણા ગામની કોલેજમાં વિદ્યાર્થીના આપઘાત બાદ અન્ય વિદ્યાર્થીઓએ કોલેજ ઉપર આક્ષેપો કરી હોબાળો મચાવી હેમચંદ્રાચાર્ય ઉત્તર ગુજરાત યુનિવર્સિટીને લેખિતમાં રજૂઆત કરી હતી. જેથી યુનિવર્સિટી દ્વારા સમગ્ર મામલે તપાસ સમિતિ બનાવવામાં આવી છે. જેમાં ત્રણ સભ્યોનો સમાવેશ કરી ૭ દિવસમાં કોલેજની રૂબરૂ મુલાકાત લઈ સુચિંતિત અહેવાલ

સાત દિવસમાં અહેવાલ યુનિ.ને સોંપવા આદેશ

યુનિવર્સિટીને સોપવા કહ્યું છે. આ કમિટીના રિપોર્ટ બાદ કોલેજના આચાર્ય સામેના કથિત આક્ષેપોને પગલે સંભવિત કાર્યવાહી સામે આવી શકે છે.

બનાસકાંઠા જિલ્લાના ડીસા પાસેના રસાણા ગામે આવેલ ભારત નર્સિંગ કોલેજ વિવાદમાં યુનિવર્સિટીએ તપાસ કમિટીની રચના કરી છે. ડીસા તાલુકાના દામ ગામનો પરેશ પૂંજાભાઈ સુથાર નામનો યુવક અને અન્ય ૨ યુવકો અગાઉ કોલેજમાં બીએસસી નર્સિંગના બીજા વર્ષની પરીક્ષા દરમ્યાન કોપી કરતાં પકડાયા હતા. જે બાદમાં કોલેજના પ્રિન્સિપાલે તેમને બોલાવી પરેશને ૧ વર્ષ અને અન્ય બે વિદ્યાર્થીઓને ૧-૧ મહિના માટે સસ્પેન્ડ કર્યા હતા. આ તરફ વિદ્યાર્થીઓના આક્ષેપ મુજબ પ્રિન્સિપાલે પરેશને લાફો માર્યો હોઈ અને સસ્પેન્ડ પણ કર્યો હોઈ તેનું મન દુ:ખ રાખી પરેશે અમદાવાદ રિવરફ્રન્ટ ખાતે પહોંચી નદીમાં ઝંપલાવી જીવન ટૂંકાવી લીધું હતું. જેને લઈ અન્ય વિદ્યાર્થીઓએ ભારે આક્રોશ સાથે વિરોધ નોંધાવી યુનિવર્સિટીને લેખિતમાં રજૂઆત કરી હતી.

યુનિવર્સિટી દ્વારા બનાવવામાં આવેલ તપાસ કમિટીમાં ત્રણ સભ્યોનો સમાવેશ કરવામાં આવ્યો છે. જેમાં હરેશભાઈ એચ.ચૌધરી (શ્રેયાન), પ્રિ.ડો.લલિતભાઈ પટેલ (પી.કે.કોટાવાલા આર્ટસ કોલેજ, પાટણ) અને પ્રો.ડો.સંગીતાબેન શર્માનો સમાવેશ કરાયો છે. આ સાથે કમિટીને સભ્યો સાથે પરામર્શ કરી સંસ્થાની રૂબરૂ મુલાકાત ગોઠવી દિન-૭માં સમિતિનો સૂચિંતિત અહેવાલ યુનિવર્સિટીમાં મોકલી આપવા કહેવાયું છે.

રોકાણ ઉપર ખોટી ફરિયાદ થતાં હવે ગુજરાતમાં રોકાણ કરતાં પહેલાં વિચારવું પડે એવી પરિસ્થિતિ લાવીને મુકી દીધી છે.

ઠગ નીતેશ પટેલ દ્વારા કેલા એસોસિયેટ્સમાં ભાગીદાર એવા સલીમભાઈ મેમણ સાથે ઠગાઈ કરવાના ઈરાદે ૮ સપ્ટેમ્બર, ૨૦૧૭ના રોજ સલીમભાઈ મેમણ દુબઈમાં હોવા છતાં ખોટું પાર્ટનરશિપ ડીડ બનાવ્યું હતું અને એમાં પાર્ટનર તરીકે સલીમભાઈને બાકાત કરતો લેમ બનાવ્યો હતો. આ મામલાની ફરિયાદ વરણામા પોલીસ મથકે અપાઈ હતી, જેની તપાસ ચાલી રહી હતી. એવા સમયે જ શહેર પોલીસે પણ હદમાં નહીં આવતી હોવા છતાં ઊંધી ફરિયાદ ઉપજાવી હતી. ખરેખર તો નીતેશ પટેલે સલીમભાઈ મેમણને આપેલા રપ.પર કરોડની રકમના ચેકો પૈકી માત્ર એક જ ચેક ૫૦ લાખનો ક્લિયર થયો હતો. બાકીના બધા પરત કર્યા હોવાથી આ અંગેની બીજી ફરિયાદ પણ અદાલતમાં કરવામાં આવી છે.

DAILY ORDER

1. The present Application has been filed by the Applicant, KPI Global Infrastructure Limited, for grant of Intra-State Trading Licence to the Applicant.

2. The Commission, vide letter no. GERC/LEGAL/2021/986 dated 30.07.2021 has directed the Applicant to issue Public Notice. In response to the aforesaid directive, the Applicant has issued Public Notice on 04.09.2021 in Daily Newspapers, viz; Sandesh, Gujarat Guardian, Loksatta, Gujarat Today and Weekend Business Standard, stating that the Applicant has filed an Application before the Commission for grant of Intra-State Trading Licence and if any party has an objection on the Application, they may file their

objection before the Commission within 30 days from the date of Public Notice. It was also stated that the Application for Trading Licence is available on the website of the Applicant, www.kpgroup.co. It was also stated that copy of the Application along with all relevant documents would be provided to the persons on payment of Rs. 350/- either in cash or through DD in favour of KPI Global Infrastructure Ltd.

3. In response to the aforesaid Public Notice, the Commission has received one objection from Shri Rajeshkumar Rasiklal Maniyar, Bhavnagar, wherein the Objector has raised certain objections alleging that M/s K. P. Energy company has illegally set up more wind mills in Mahuva taluka of Bhavnagar district than approval granted by the Government and some of which are at locations other than approved and also within forest boundary and selling wind energy generated from such wind mills to Government. It is stated that the copy of the said objection dated 06.09.2021 has been forwarded to the Applicant by the objector.

4. Thereafter, the matter was kept for hearing on 20.10.2021.

5. During the hearing, Shri Irfan S. Mombasawala, on behalf of the Applicant, KPI Global Infrastructure Limited, submitted that the present Application has been filed by the Applicant for grant of Intra-State Trading of Electricity license as per the provisions of the Electricity Act, 2003 and the GERC (Licensing of Electricity Trading) Regulations, 2005.

6. The Applicant submitted that it desires to carry out trading activity of electricity in the State of Gujarat for the small generators / investors who set up their own IPPs and desire to sell the energy generated from such projects to third party but find it difficult in selling the same. So in order to facilitate them, the Applicant is seeking intra-state trading license from the Commission. It is also submitted that the Applicant is also carrying out EPC work for project developers setting up Solar Projects and after commissioning the project is handed over to its owner. It has carried out EPC work for 60 MW Solar Projects in the State and has recently carried out EPC work for 12.5 MW Solar PV project for one captive generating plant. In certain cases, the Applicant has also taken up O&M work of Solar Projects by entering into contract with such solar generators.

6.1. On a query of the Commission as to whether the Applicant has received copy of the above objection filed by Shri Rajeshkumar Rasiklal Maniyar, Shri Irfan S. Mombasawala, on behalf of the Applicant, submitted that the same is not received and hence, no response is filed. He requested that a copy of the objection be provided to the Applicant to enable filing reply on same.

6.2. On a query of the Commission as to whether the Applicant has carried out any activities pertaining to trading of electricity earlier or any associated activity, the Applicant fairly admitted that no such activity has been performed by it in the past.

6.3. On a further query of the Commission that the Applicant has stated in the Application regarding having an operating account with SBI only and submitting the certificate issued by SBI dated 18.01.2021 stating that the Applicant is maintaining the loan and CC account satisfactorily or is it having any account with other banks/financial institutions, Shri Irfan S. Mombasawala, fairly admitted that the Applicant is having operating account with SBI and Power Finance Corporation (PFC). It is submitted that the Applicant has also filed letters dated 15.06.2021 and 28.06.2021 of SBI certifying that the Applicant does not classify as 'Wilful Defaulter' in RBI Defaulter's list available as on 31.12.2019 and 31.03.2021 respectively. However, the relevant certificates from PFC that operating account is maintained satisfactorily by the Applicant and is not wilful defaulter from PFC is not submitted alongwith the Application and agreed that the Applicant will file the relevant certificates of PFC which have not been submitted along with the Application.

6.4. On a query of the Commission as to how they will carry out the Trading Activity without any experience etc., it is submitted that the Applicant has filed with the Application 'Approach & Methodology for Establishment of Power Trading Arrangement', wherein; schematic diagram is given with regard to the approach and methodology for trading provided.

6.5. In response to any ongoing proceedings or pendency of court matters against the Applicant company or its Directors' etc., Shri Irfan S. Mombasawala submitted that there are no proceedings or court matters ongoing or pending before any Court against the Applicant or its Directors. However, the Applicant will file its submissions on affidavit regarding same.

6.6. It is submitted that the Net-worth of the Applicant as on 31.03.2020 is Rs. 98.06 crore and Annual Turnover is Rs. 59.55 crore as per audited financial statements filed.

7. Heard the Applicant. We note that the Applicant has filed the present Application for grant of Intra-State Trading Licence as per the provisions of Sections 14, 15, 16, 18, 52, 86(1)(d) of the Electricity Act read with Notification No. 3 of 2005 of GERC (Licensing of Electricity Trading) Regulations, 2005 to carry out Intra-State Trading of Electricity within the State of Gujarat by the Applicant. The Applicant has issued Public Notice in different daily newspapers as stated in para 2 above and invited comments and suggestions on the License Application. The Commission has received one objection from Shri Rajeshkumar Rasiklal Maniyar. However, there is no response by the Applicant on the said objection on the ground that copy of the objection has not been received by the Applicant. Therefore, we direct the Office of the Commission to provide copy of the aforesaid objection to the Applicant. The Applicant is at liberty to file its submission, if any, on the objection within 10 days from the receipt of the copy of the objection, with a copy to the Objector.

7.1. We also note that the Applicant has submitted 'Certificate of Standard Borrowal Account' and 'Certificate stating RBI has not classified the Applicant as Wilful Defaulter' of State Bank of India stating that the conduct of the account is satisfactory and that Applicant company does not classify as 'Wilful Defaulter' in RBI Defulater's list available as on 31.03.2021. It is admitted by the Applicant that it is having borrowing account with PFC also. However, no certificates from PFC have been submitted. We, therefore, direct the Applicant to submit the certificate(s) of 'Standard Borrowal Accounts' with other Financial Institutions, in addition to PFC, if any.

7.2. The Applicant has submitted 'Approach & Methodology for Establishment of Power Trading Arrangement', wherein; schematic diagram is given regarding approach and methodology for establishment of power trading arrangement wherein no details have been stated with regard to trading activity and EPC work carried out by the Applicant by providing their work. The Applicant is directed to provide the details of the same.

7.3. We note that there is an objection filed in the present Application, which is not received by the Applicant and has requested to provide copy of same on which the Applicant has

sought time to file its reply. Let the copy of objection be provided to the Applicant and time for filing reply on same is granted. We therefore, adjourn the matter. We direct the Applicant to file its reply, if any, against the objection within 10 days from the receipt of copy of the objection, with a copy to the Objector. We also direct the Applicant to provide the 'Certificate of Standard Borrowal' of PFC and other Financial Institutions, if any. We also direct the Applicant to provide complete details on affidavit with regard to approach and methodology for Intra-State Trading activities that it desires to carry out as a Licensee.

8. We order accordingly.

9. The next date of hearing will be intimated separately.

Dear Rajeshkumar Rasiklal Maniyar

Reference :

1) Your objection letter related to public notice of KPI Global Infrastructure Limited in regard to License Application No 02/2021
2) Public Notice Dated 04/09/2021

At the first place, we individually and collectively deny all of your allegations on K.P. Energy Limited and to the applicant Company KPI Global Infrastructure Limited. Further, On going through the objection raised by you, It become obvious that you are very well aware of the fact that the applicant namely KPI Global Infrastructure limited is altogether separate entity from K.P. Energy Limited. Therefore, technically question in respect of any misdeed if any does not arise against the applicant company.

Without prejudice to our primary contentions no misdeed has been conducted by K.P. Energy limited to the best of our knowledge and information, we would like to rebut your query /objection with regard to KP Energy Limited as under.

Point NO 01 to 04

Having gone through Point no 01 and 02 of your objection letter it transpires that you have alleged of certain discrepancies has been committed by KPE in respect of Erection of Wind Mills. At the same breath, in point no.03 & 04 it is also submitted that the matter is sub judies. Hence, technically it can be said that as of now whatever objection raised by you are mere an allegation and nothing has been proved against the KPE. Moreover, as matter is sub judice, it would be wrong from our end to comment anything about it.

KPI Global Infrastructure Ltd (KPI) is an established Solar Power Developer and have developed more than 65MW solar power plant (the project name is *Solarism*) at Vill: Sudi, Ta: Amod in Bharuch District under Third Party Sale option through bilateral PPA. KPI is selling the solar power to 3rd Party by getting into bilateral PPAs.

With announcement of latest Gujarat Solar Power Policy 2021 giving several incentives, there are small investors willing to invest as IPP in solar starting from as low capacity as 500KWp under 3rd party option. KPI, being an established company having all the technical and regulatory knowhow and selling solar power since last more than 6 years, is well placed to provide a platform to such small investors by purchasing power from them and selling it to the end users through bilateral PPAs by entering into long term Power Purchase Agreements with them. This will help to implement and contribute to achieve the Government target of generating Solar Power as per the declared Gujarat Solar Power Policy 2021.

The Solar Policy encourages use of common evacuation facilities by adjoining developers as envisaged in the **Gujarat Solar Policy 2021 whose Clause No. 20.3 'Evacuation Facilities',** states that:

> *"To optimize costs, Common dedicated transmission line shall be encouraged for cluster of adjoining Developers with appropriate metering at their respective end of project as well as a common meter for such SPGs at the receiving end at CTU Interface/ STU substation/ 11 kV system of DisCom. Energy injection by each SPG at the receiving end shall be worked out on the basis of meter reading of common meter appropriately apportioned as per the respective meter reading at the sending end meter of that SPG by SLDC."*

Open Access regulations providing non-discriminatory provision for use of transmission lines or distribution system by license or consumer or a generator, have played critical role in opening up the power market.

The present market structure seems favourable towards power trading and the same is constantly evolving for power traders due to mechanisms like open access, power exchanges, etc. as stated above. Better opportunities are emerging in the future for investors due to factors like – interstate power trading, growth in demand, generation capacity addition, favourable transmission pricing structures, etc.

The company is well equipped with requisite manpower and necessary infrastructure to handle the trading activities.

2. APPROACH & METHODOLOGY

The approach & methodology adopted is illustrated in the below schematic diagram:

Here,

IPP-n	: is an Independent Power Producer (Generator)
KPI	: is Power Trader
End User-m	: is the End consumer of the power

IPP shall sign Long Term Power Sale Agreement with KPI (The Power Trader) while End User shall sign Power Purchase Agreement (PPA) with KPI (The Power Trader).

We are well equipped with accounts, sales, technical, admin department, human resource, finance, and corporate taxation teams. We have established in house teams to look after entire work since long. The company's turnover for FY 20-21 is Rs 103.50 crores and profit after tax is Rs 22.11 crores and Reserves and Surplus of the company stands at Rs 102.10 crores as on 31.03.2021. Our company is in compliant with all the criteria's required by GERC for Intra Trade License.

We have selected lowest category in which upto 50 Units million KwH of electricity is proposed to be traded per annum. At present out of our own solar production through PPA.
The billing and collection has passed MORE THAN 60 months and not a single query / difficulty faced by neither our customers nor concerned government / semi government and other related departments. It supports us to claim that we are well equipped with the entire infrastructure for power manufacturing and trading by Solar Energy. To use such experience and explore further market we have decided to initially enter into Intra State Power trading activity.

As per latest government policy related to renewable power generation, government has allowed small IPP Projects in solar i.e. from 0.50 MW for individuals, partnership or to any other entity. Since we are manufacturing renewable energy and also working as a EPC contractor for establishing solar energy power generating unit we find a huge demand and readiness of entities to put up IPP as mentioned above. The government has given accelerated depreciation incentive to solar project investor. Accordingly, an investing concerns are eligible for 40 % + 20 % in totality 60% depreciation on their established Solar Power Plants. This scheme lures investors to invest in renewable power sector.

The major hurdle for manufacturer who established small units as low as 0.50 MW capacity plant is to find customer who is ready to purchase from small units and then after complete the entire registration and other concerned departmental procedures because of cumbersome process of compliance of the concerned departments. We will provide them a service and made it possible for them to complete such formalities and also made long term power purchase agreement with them under the guidelines and rules framed by the concern departments.

We will put our total efforts to succeed in the power trading activity. A step towards success in the Intra State Power trading activity we have appointed competent life experienced persons as independent director on our board namely :

1) Mrs.Venu Birappa (Date of Joining 03/08/2021)

She is well versed in Power Sector having more than 37 years of rich and varied work experience in all the facets of power sector ie regulatory, legal, finance, commerce and technical aspects pertaining to Transmission, System operation, and Distribution.

Started her professional career in 1984, in GEB and then Gujarat Energy Transmission Corporation Limited(GETCO) and worked upto July 2021.

Post retirement from GEDA, was retained as officer on special duty at GEDA, as overall incharge of the Technical wing of the State Nodal Agency involving advising the agency and state government on renewable energy policy formulation, facilitating RE Investors, planning and monitoring of the programs and policies of the state government in proliferation of renewable energy and energy conservation.

Under these two expert directions we will appoint required staff specifically for power trading activities. We have also planned to make our own mobile application as well as website which would be beneficial for buyer as well as seller and will be helpful to our customers to sell the power generated at the market rate. We are planning to establish in future the online trading platform which will be accessible to our Participants through feature-rich easy-to-use trader workstations (TWS), over

entire Gujarat through MPLS- **Multiprotocol Label Switching** leased lines, and the internet over secure Virtual Private Networks (VPN).
The electronic platform established by us will be supported by our infrastructure and advanced technology, allowing fast trade execution, with uptimes exceeding 99.95%, low latency, anonymity between counterparties, price transparency, prompt and reliable order routing, trade reporting, market data dissemination and market surveillance. The trading platform, and application will support infrastructure hosted by us in a state of Gujarat Data Centre and we are planning to keep replicated at a Disaster Recovery site in Bangalore.

We are willing to reach each & every interested industrialist and promote renewable power generation. The entire procedure will be followed under the guideline given by GERC and CERC and we will follow each and every point as per GERC policy which has to be followed by the trader.
We are well equipped with a accounting software in which we will keep separate accounting for power trading activity as required by GERC policy.

Presently in our Company we have more than 100 employees on Pay roll and on off role which includes experienced Chartered Accountants , Engineers, M.B.A. and all other skilled staff. According to the requirement of power trading laws we will develop a new team as well.
Our app will be well equipped and will provide slot wise power trading. It will provide fingertip data to purchaser and seller of power. We will promote solar park in which all IPP producer will produce and we will take responsibility to sell power generated by them. The generated data will be merged and sale in bulk quantity to final customers.

Nowadays only big giants are purchasing and taking benefits of open access. Through various seminars and conferences, we will try to encourage small consumers to purchase power through us. We will act as middle key factor for generator actual user and concerned department. An individual generating 0.50 MW or so cannot bear all the related expenses for trading of power. Our efforts towards this will definitely convert to win win situation for all parties including government authorities.

The detail procedure for online power trading we have design for future is as under.

Our Day Ahead Market Online Trading of solar power units Process will be divided into six sessions:

1. BIDDING

- Participants enter bids for sale or purchase of power for delivery on the following day.
- Bids for a total of 96 blocks of 15 minute each can be entered.
- Bids can be single and/or block including linked bids:
    - Single bids: 15-Minute bids for different price and quantity pairs can be entered through this type of order. Partial execution of the bids entered is possible.
    - Block bids: Relational Block Bid for any 15-min block or series of 15-min blocks during the same day can be entered. Although no partial execution is possible i.e. either the entire order will be selected or rejected.

- The bids so entered are stored in the central order book. The bids entered during this phase can be revised or cancelled till end of bid call period (i.e. 1200 hrs of trading day)

2. Matching

- At the end of the bidding session, bids for each 15 minute time block are matched using the price calculation algorithm.
- All purchase bids and sale offers are aggregated in the unconstrained scenario. The aggregate supply and demand curves are drawn on Price-Quantity axes. The intersection point of the two curves gives the market clearing price (MCP) and the market clearing volume (MCV) corresponding to price and quantity of the intersection point.
- MCP and MCV are determined for each block of 15 minutes as a function of demand and supply which is common for the selected buyers and sellers.
- Selected members are intimated about their partially or fully executed bids and other trade related information.
- By 1300 hrs, transmission corridor required to fulfill successful transactions are sent to SLDC.

3. Transmission Corridor and funds availability

- Preliminary MCP and MCV are used to calculate the provisional obligation of the selected participants and the provisional power flow.
- Funds available in the settlement accounts of the participants are verified based on the provisional obligation.
- In case of insufficient funds in the account, the bids entered by such a participant are deleted.
- Required corridor capacity and provisional power flow is sent to SLDC for scrutiny and corridor allocation is requisitioned based on availability.
- By 1400 hrs , SLDC reverts with actual transmission corridor availability during all 15 minute time blocks across congestion prone bid areas.

4. Results

- Based on reserved transmission capacity intimated by SLDC, we re calculates MCP and MCV as well as area clearing price and area clearing volume. ACP is used for the settlement of contracts. On receipt of final results, obligations are sent to the clearing banks for Pay in from buying Members at 14.30 hrs and the bank is asked to confirm the same.

5. Confirmation

- Final results for confirmation and application for scheduling of collective transactions are sent to SLDC.
- SLDC sends the details of the schedule to respective SLDCs.

6. Scheduling

- SLDCs incorporate Collective Transactions in the Daily Schedule.
- A scheduled transaction is considered deemed delivery.
- Deviations Settlement or Imbalance Settlement regulations, Embedded Entities are governed by respective State Commission's regulations.

We are very much confident that we will run trading of power business bery smoothly and we will adhere to the norms, Laws, Acts, Notifications and guidelines issued by the Government and by the concern departments. We are also ready to make changes in future as per the requirement of Laws.

'KPI Green Energy Limited'. However, the Applicant/Petitioner has not submitted any documents in this regard. We also note that the Applicant/Petitioner has filed its reply to the objections of Mr. Rajeshkumar R. Maniyar, with a copy to him but no proof of service has been filed by the Applicant/Petitioner before the Commission in the present matter. We also note that the Applicant/Petitioner has filed an Affidavit dated 30.11.2021 wherein the Applicant/Petitioner has provided details of pending criminal complaints / cases against the Directors / Company. However, current status of said cases is not provided by the Applicant/Petitioner. Hence, the Applicant/Petitioner is directed to file the above details on affidavit, within 10 days' time, from the date of this Order, with a copy to the Objector. We are also of view that as the name of Applicant/Petitioner Company is changed, it is required for the Applicant/Petitioner to change cause title of the Application / Petition including memo of parties filed before the Commission. Accordingly, the Applicant/Petitioner is directed to amend the cause title / memo of parties and provide further details, if any, by filing further submissions on affidavit, within one week's time from the date of this Order."

10. Hence by way of this Affidavit I state that the company has applied for change of name of the company from KPI Global Infrastructure Ltd. to KPI Green Energy Ltd. wherein the company has obtained the Certificate of Incorporation pursuant to change of name from Office of the Registrar of Companies, Gujarat vide Corporate Identification Number (CIN): L40102GJ2008PLC083302. The same is annexed herewith this Affidavit. Annexed hereto and marked **Annexure-VI** is the copy of the Certificate of Incorporation.

Therefore, I humble request to this Hon'ble Commission that the below amendment is required in **cause title of the applicant:**

CORAM: **HONOURABLE MS JUSTICE SONIA GOKANI**

Date : 11/08/2016

ORAL ORDER

1. Petitioner is before this Court seeking quashment of the complaint being C.R.No.I- 61 of 2016 registered with Vadodara Rural police station for the offences punishable under sections 447, 406, 420, 506 and 114 of the Indian Penal Code.

2. According to the complainant, he had entered into an agreement of sale of factory and machinery with the petitioner. The petitioner was put in possession of the premises, and therefore, he had posted his security guards for securing the

machinery lying in the premises.

3. It is his say that sum of Rs.5 crores had been paid to the complainant and the petitioner had agreed to pay sum of Rs.12 crore to the Bank. The Bank has already given no objection certificate for selling of the property of the complainant in favour of the present petitioner. Though the approval has come on 10.5.2016, the amount has not been parted with nor deposited in the Bank in wake of the entry, which has been posted in the revenue record on 18.5.2016 as noticed during the procedure of obtaining title clearance certificate. It was noticed by the petitioner that in Company Petition No.299 of 2015 a direction not to transfer or alienate the property of the company which includes the property in question is passed. The petitioner was oblivious of such a petition and entry in the revenue record.

4. Learned Senior advocate Mr. Sanjanwala appearing with learned advocate Mr. Gondaliya has urged that the petitioner otherwise would not have

parted with such huge amount of Rs.5 crores. He, further, on instructions, has submitted that the petitioner is not interested in continuing the possession of the premise.

5. Issue notice returnable on 19.8.2016. Investigating Officer shall remain present with the papers of investigation.

6. Investigating officer shall follow the dictum laid down by the Apex Court in the case of ***Joginder Kumar vs. State of Uttar Pradesh*** reported in ***(1994) 4 SCC 260***.

7. Respondent No.2 be served through the concerned police station.

Direct service is permitted.

1. **NOTICE returnable on 18-03-2020**. Learned Assistant Government Pleader waives service of Notice on behalf of the respondent-state.

2. Learned Advocate for the petitioners submitted that electric line is being laid down by private company, which is in contract with the respondent No.1. One of the conditions, condition No.6 of the contract between the respondent No.6 – Private Company and respondent No.3 appears to be burden of the contractor to get clearance from Village, farms, revenue / private / Gauchar / Forest land and etc. throughout the route of transmission tower line at own cost and risk. It is

Dear Rajeshkumar Rasiklal Maniyar

Reference :

1) Your objection letter related to public notice of KPI Global Infrastructure Limited in regard to License Application No 02/2021
2) Public Notice Dated 04/09/2021

At the first place, we individually and collectively deny all of your allegations on K.P. Energy Limited and to the applicant Company KPI Global Infrastructure Limited. Further, On going through the objection raised by you, it become obvious that you are very well aware of the fact that the applicant namely KPI Global Infrastructure limited is altogether separate entity from K.P. Energy Limited. Therefore, technically question in respect of any misdeed if any does not arise against the applicant company.

Without prejudice to our primary contentions no misdeed has been conducted by K.P. Energy limited to the best of our knowledge and information, we would like to rebut your query /objection with regard to KP Energy Limited as under.

Point NO 01 to 04

Having gone through Point no 01 and 02 of your objection letter it transpires that you have alleged of certain discrepancies has been committed by KPE in respect of Erection of Wind Mills. At the same breath, In point no.03 & 04 it is also submitted that the matter is sub judies. Hence, technically it can be said that as of now whatever objection raised by you are mere an allegation and nothing has been proved against the KPE. Moreover, as matter is sub judice, it would be wrong from our end to comment anything about it.
