DAY TODAY

BY PETER VIDAL

ARIES (Mar 21 - Apr 20)
A large shot of common sense is always just what is required to get you on the straight and narrow. Your current planets are perfect for practical tasks, and for putting the much-needed effort into social and romantic relationships.

TAURUS (Apr 21 - May 21)
A high proportion of Taurus will be working hard, even putting in some overtime. Those of you planning to put your feet up should keep active. You'll be much happier if you feel that you have actually achieved something worthwhile.

GEMINI (May 22 - Jun 21)
The crucial planetary patterns today are civilised and enlightened, which is helpful since you are coming up with some interesting ideas. Everything looks poised for sound, practical decisions and sensible conversation.

CANCER (Jun 22 - Jul 23)
You need to sit down and talk to people at home, if only to get something off your chest. The key to a successful future is consultation and co-operation. Stick to familiar paths, and hone the solutions you've applied already.

LEO (Jul 24 - Aug 23)
Occasionally, bite your lip to avoid offending someone needlessly. You must remember that other people don't necessarily see the world in the same way as you, and you need to respect their points of view, regardless of your reasons or motives.

VIRGO (Aug 24 - Sep 23)
You may be concerned by personal plans, but all new developments in your chart hinge on professionalism and high finance. It's probable that business and pleasure will begin to merge, perhaps because a loved one shows you the way to fulfil a worldly ambition.

LIBRA (Sep 24 - Oct 23)
The next few weeks are likely to be crucial in shaping your personal affairs over the next twelve months. Today's alignments are ideal for rational thought and reasonable decisions, and favourable for family initiatives.

SCORPIO (Oct 24 - Nov 23)
Your current planets hold a supremely Scorpionic phase of life, intense, severe and mystical. But today brings an entirely contradictory pattern of light-hearted conversation. Can you handle it? Yes, but only if you take partners' promises with a touch of healthy scepticism.

SAGITTARIUS (Nov 24 - Dec 22)
If life is like a card game then I must tell you that your fellow players hold most of the trump. Therefore, be wary of an entirely contradictory pattern of light-hearted conversation. Can you handle it? Yes, but only if you take partners' promises with a touch of healthy scepticism.

CAPRICORN (Dec 23 - Jan 20)
An alligator is about to come to your aid, but what takes place over the next few days may not be public knowledge until next week or even the coming month. Whatever your personal situation, this is a day to stay busy and do what you're best at - risk buster.

AQUARIUS (Jan 21 - Feb 19)
What is decided now could have very far-reaching and practical consequences, probably way beyond your wildest dreams. It now looks as if partners will have to agree and admit that you were right all along.

PISCES (Feb 20 - Mar 20)
You must pay special attention to close emotional connections with particular reference to relations and anyone else who's lucky enough to live with you. They need to feel that you're there for their attention they deserve.
